 <p>DM NAT 2024</p>	<p>Rev. 2024-03-17 UK</p> <h2>Bulletin 2 Danish Night Orienteering Championships 2024</h2>
	<p>Changes are marked</p>
Organizer	<p>Orienteringsklubben Roskilde</p>
Note	<p>In case of discrepancy between this bulletin and the Danish version, the Danish version applies.</p>
Date	<p>Friday 22. March 2024          Event center opens at 17:00          Startlist will be published no later than 20. March at 17:00</p>
Forrest	<p>Annebjerg Skov near by Nykøbing Sjælland. It is forbidden to enter the terrain before start.</p>
Parking / event center	<p>Parkering at <a href="#">Odsherred Museum</a>, Annebjerg Stræde 1, 4500 Nykøbing Sjælland.          Event center at the southern part of the parking area.</p> <p>For the safety of the runners, please try to avoid the small roads "Annebjergvej" (Northwest) and "Skaverupvej" (south) for driving to/from the parking. It is recommended to arrive via "Annebjerg Stræde" or "Egebjergvej" to the parking (the recommended routes in Google Maps)</p>
Services	<p>Event center at the southern part of the parking area at Odsherred Museum. It is not possible to set up a club tent. The event center is divided between a room where the kiosk, event office, results and first aid are located and an adjacent tent.</p> <p>Nearby there will be two tents for clothes changing.</p> <p>The kiosk offers candy, cake, coffee, tea and other refreshments - please bring our own cup.</p> <p>There are toilets at the event center and one at start.</p> <p>No possibilities for taking showers.</p>

Distances

Parkering – event center : 0-200 m, event center – start: 1500 m

Open2	4,0km	11	1:7500	Open4	3,5km	9	1:7500

The following classes will have a map flip: D18, D20, D21, H18, H20, H21, H35, H40

The course ends by a control on the first used side of the map. The

	<p>same control is marked on the backside of the map and the course continues. The Start-triangle is only marked on one side, while the finish is marked on both sides of the map. The mapflip is marked like this on the control description:</p>  <p>The example: Control number 3 (169) is the last marked control on the course on the first used side of the map and the first control on the course on the backside. The numbering of controls continues.</p>
Electronic control system	SportIdent - touch free (SIAC). Rented SI-cards will be handed out at the start. Lost SI-cards must be replaced at the current price.
Map	<p>Annebjerg Skov, mapped 2023, scale: 1:7.500 and 1:10.000. Contour 2,5 m. Printed on pretext paper (waterproof).</p> <p>Cultivated land: The forest is on multiple sides surrounded by cultivated land (IOF Symbol: 412 Cultivated land). It is not permitted to run on these cultivated lands or run along the edge. All forbidden cultivated land is marked with out-of-bounds area (Symbol: 709 Out-of-bounds area)</p> <p>Roads: The edge of the forest is on some sides followed by asphalt roads. It is permitted to use these, however there is no arranged traffic regulation. Very little traffic is expected on the roads.</p> <p>Boulders: Please notice that most boulders (IOF Symbol 204 'Boulder') in the forest are below 1m tall, but many are still marked on the map. If marked on the map, you can expect that they are at least 1,5m in width. Boulders used for control locations will have the height indicated in the control description. Height is given in meters as shown in this example:</p>  <p>The shown control location indicates that the boulder is 0,8m tall, but it can be expected that it is minimum 1,5m in width.</p> <p>Other special symbols on the map:</p>

	<ul style="list-style-type: none"><li>× Permanent Bench/Table</li><li>○ Firepit</li><li>× Rootstock (min 2m)</li></ul>				
Terrain	Annebjerg Skov consists primarily of deciduous forest with a few small coniferous areas. The runnability is mostly very good with many paths and only a few densely vegetated areas. The forest is mostly flat, however there are a few moderate hills spread around with some slopes. There are multiple smaller wet-areas, but due to some narrow deep watercourses, the drainage is efficient and seasonal spring floodings are not expected. However existing marshes on the map are usually very wet and can be difficult to cross.				
Control descriptions	Control descriptions are printed on the map and extra control descriptions are available at start, for runners with a suited case for these.				
Start	<p>Individual start for all classes. First start at 20:00, late entries start before. Sunset at 18:36</p> <p>Announcement 4 before start: Box 1: Hand-out rented SI-card Box 2: Control descriptions for runners with suitable case, maps Box 3: Check of SI-card number, maps. Box 4: The card must be taken at the start moment, however, it is permitted to check that the card is of the correct class, with the exception of classes with map flip, where the race class appears from the part of the map visible in the card box (the map is double-sided).</p> <table><tr><td>Handout of rental SI cards</td><td>Control descriptions</td><td>Check of SI-card number Map handout for W/M-12</td><td>Map handout for other classes</td></tr></table> <p>The map will be handed out to participants in W/M-12 in box 3, 2 minutes before start. The participants cannot see the starting point, but the way to it is marked and the starting point will be manned. This will ensure that these participants get a proper start.</p> <p>Late runners must contact the staff at start.</p> <p>Clear and check units are available at start.</p> <p>Direct entry use put &amp; run, start between 20 - 21.</p>	Handout of rental SI cards	Control descriptions	Check of SI-card number Map handout for W/M-12	Map handout for other classes
Handout of rental SI cards	Control descriptions	Check of SI-card number Map handout for W/M-12	Map handout for other classes		
Finish	The runner must punch the finish control. At the finish line, the map must be handed in. After the last start, maps are handed out in the event centre. Refreshment (water) at the finish. Maximum running time is 3 hours.				
Cover clothes	Transportation of cover clothes from start to event center.				

Results	Results will be available on-line and at monitors in the event center.
Prizes	<p>DIF's championship medals are awarded to the winners in W/M 21. No. 2 and 3 receive DO-F's championship medal in silver and bronze.</p> <p>In other championship classes, DO-F's championship medals are awarded in gold, silver and bronze.</p> <p>Medals are only awarded to participants who are members of a club on the day of the event under the association (DOF) and who is a Danish citizen, or is registered on the day of the competition to the national register in Denmark.</p>
Organization	<p>Event director: Anders Laage Kragh, OK Roskilde, 23236250, anders@laagekragh.dk</p> <p>Course setter: Andreas Kemp, Henrik Boesen, OK Roskilde</p> <p>Course control: Gert Nielsen, Amager OK</p> <p>Event controller: Claus Skovsøe, Hvalsø OK</p> <p>Mapper: Finn Skouenborg &amp; Jan Thiesen, Holbæk OK</p> <p>Jury: Pernille Buch, OK Gorm, Anne Maarup, Allerød OK, Poul Bobach, Ålborg OK</p>
